Rogue River Cleanup

The Lower Rogue Watershed Council and our partners invite you to participate in an annual community service day on the scenic Rogue River.

The trash we see along our river can be an eyesore, and it pollutes the land and the water. Some of this trash floats down from upriver during high rainstorms, and some trash is left behind by people using the gravel bars and river for recreation.

This rain or shine event has 2 components: a “**land**” component for our community members to clean up gravel bars & beaches, AND our students complete the “**boat**” portion to clean up the river.
