Project Location

The project site is located approximately 2.5 miles south of Langlois on a private ranch. The site address is [47404 Floras Lake Loop Rd., Langlois, OR 97450](#)

Legal Description: T31S R15W S9SE

Project Scope

Contractor will build 5-10 instream large wood structures in Willow Creek for instream habitat. Construction specifications will be provided at the site show (see below), but general activities will include:

- Excavation of keyway trenches for log placement
- Placement of rootwad logs and smooth logs in excavated trenches (a machine with an attachment that can grab and swivel logs is highly preferred)
- Backfilling of keyway trenches with soil and rock

Project Timing

The project has to be implemented during the instream work window (July 15 – September 30, 2026).

Site Show

A **mandatory** site show will be held on-site at **3pm, Wednesday, May 6, 2026**. Meet at the barn located at the project location listed above. Project activities will be reviewed in the field, which will take approximately 1 hour. **Failure to attend the site show will bar you from bidding on this project.**

Prevailing Wage

This project is subject to Davis-Bacon Act prevailing wage.

Proposals must be submitted by 5pm, Friday, May 15, 2026. Bids will be publicly opened at 10 am on Monday, May 18, 2026 at the Curry Soil & Water Conservation District office, located at 29286 Ellensburg Ave. in Gold Beach.
